

## **Government; Di Maio, M5S announces the Decree Dignity to Restore Social Rights**

"The first decree that I will make as Minister of Labor and Economic Development will be called Decree Dignity and will serve only and exclusively to restore the social rights of citizens. In these years, with the excuse of urgency, decrees have been made for everything and for the opposite of everything. Fundamentally, however, they have always been decrees that served to protect the interests of parties or their friends. We think, for example, of decrees that have saved positions of income and have massacred savers. The time in which the State behaved in this way is over". *Luigi Di Maio, Vice President of the Council and Minister of Economic Development and Labor.*

### **The decree dignity will have four fundamental points:**

- 1. For companies we will eliminate the cost meter, the income meter and the sector studies.** The era of the martyrization of entrepreneurs is over. Now entrepreneurs will have the State on their side.
- 2. Disincentivize delocalizations:** who takes public funds cannot go abroad. If the State gives you a hand in the work, you must create it in Italy and you must give work that is well paid and protected to Italian workers.
- 3. Fight against precarity.** The Jobs Act is going in the direction of the elimination of rights and protections, we will do exactly the opposite.
- 4. Stop the publicity of gambling,** the ludomania is now a plague that has marked profoundly thousands of Italian families and we intend to cure it in a definitive way. Just as the publicity of cigarettes is banned, so will be that of gambling. Both are harmful to the health of citizens.

**Four fundamental points from which it is necessary to start** to restore a principle that in these years has been trampled: the citizen at the center. Finally in the budget law of this year it will be possible to start the fund for the income of citizenship in order to make it operational as soon as possible. It is not possible that there are people who cannot live while there are those who receive pensions of gold and vitalities.

**The dignity of citizens must return to the first place** and all our powers to the government of the Country

---

useremo in quest'ottica e nell'interesse esclusivo degli italiani. #DecretoDignità.
